

OAKWOOD WEST HOLIDAYS

We created a *Wildlife Meadow* and manage it for wildlife.

We made and erected a **Barn Owl Box** and hunting post in our wildlife meadow.

A pair of Barn Owls now return each year to hatch and rear their young in the box.....

We make and erect numerous **bird boxes** using our own homegrown timber on site.

This box is located at our holiday accommodation 'Fern Lodge'.

All of these wildlife images were taken by guests staying in Oakwood West Holidays self catering accommodation.

Other visitors to our wildlife meadow.....

Below is a recent review for one of our self catering properties

'Meadow Hide'.

The Wildlife Meadow at Oakwood West Holidays really enhances our guests holiday experience (2 examples below).....

Review title	A luxurious retreat surrounded by nature.
Review	Meadow Hide is a luxurious and secluded retreat to relax and unwind in surrounded by nature. We enjoyed watching deer, rabbits and so many birds from the comfort of the cabin. The cabin itself has been newly constructed with great eco friendly credentials and wonderful, unique and artistic interior design to a high spec. Beautiful part of the country, lots to explore, a few of our highlights included the ancient Yew tree forest in Kingsvale nature reserve, Bosham Quay and Chichester cathedral. Unwinding in the hot tub under the stars was a great way to round of our days. We were warmly welcomed upon arrival and shown around, site was superbly run and maintained, would definitely love to return in the future.

"The cottage was immaculate with gorgeous decor. There was plenty of room for the 4 of us, and we all found the beds to be comfortable. The decked area outside, with the hot tub, is what made our holiday. Being next to a meadow made it even better. From the hot tub we got to see 2 owls flying around, rabbits, bats, pheasants and a family of deer! Surrounded by nature, but near to many great places to visit."
